

Parents/guardians and pupils,

There was some fantastic work completed by the pupils last week. The information contained is based on activity up to midnight Sunday 5th April.

The table shows all those Nessy students who completed 100minutes or more. A number of pupils completed over 200!! Congratulations to all.

Rang 3 and rang 4 are using the programme extremely well and reaping the benefit of their hard work. Rang 3 narrowly ahead this week in the best class category!

Some important points to remember:

- Nessy is available to all P/R2 -P/R 5 pupils (except for 11 pupils in Mr. Lavelle's class who have a place on Lexia).
- Both Nessy and Lexia will help your son/daughter at this time of upheaval.
- It is vitally important that pupils complete target challenges independently to set an appropriate level. Too much help at this stage or during the programme will push them beyond their capabilities. If you need a level reset this can be done by contacting Mr. Breen at armaghCBS2020@gmail.com stating that it is relation to Nessy and the pupil's name and class.
- The results provided by Nessy and Lexia are very detailed. If your child logs on to either programme but fails to do any work, this is easily spotted. This is happening so, please, keep an eye on what they are doing.

Lexia

We have fewer pupils on Lexia, however, those that logged in and completed their target time are benefitting from the programme. Some pupils failed to hit their individual target by as little as five minutes. Generally, the maximum target is only 80 minutes to be completed in a week! It is unfortunately the case that some pupils have not use the programme since leaving school two weeks ago.

On the bright side, congratulations to Ruby, in Mrs. McAnerney's P7 class, who has completed all 18 levels of Lexia. Certificate of completion will be yours at some stage in the future.

Best Lexia class last week was Mr. Smyth's P6 class.
